1/8, 1/4, 1/2, 3/4, 7/8

1/8, 1/4, 3/8, 1/2, 5/8, 3/4, 7/8, ... This is an arithmetic sequence since there is a common difference between each term. In this case, adding 1/8 to the previous term in the sequence gives the next term. In other words, $a_n = a_1 + d(n-1)$. Arithmetic Sequence: $d=1/8$
