Ascent Forums, The Largest 2019 and newer Subaru Ascent community & owners club. Tech discussions, turbo & tuning and more.

2020 ascent on third major failure | Subaru Ascent Forum

I have a 2020 ascent that is on its third major drive train failure in a year. It has 86500 miles and in the past year has had: transfer clutches replaced covered under SoA extended warranty. \$4200 if not covered Front differential and transmission replaced again under SoA extended warranty...

Removing Captains seats - Subaru Ascent Forum

Has anyone tried removing captains chairs in the 2021 Ascent onyx edition? Seems like the airbag and seatbelt wiring is a big roadblock

Remote Start not Working - 2022 Ascent | Subaru Ascent Forum

Not 100% this Ascent is equipped with remote start, so maybe that is the reason this is happening: A Google search states that for a 2022 the remote start can be activated by pressing the lock button twice (within 2 seconds) and on the third press you hold it down for three seconds & it should start.

Eyesight Not Working - Subaru Ascent Forum

We've had our 2023 ASCENT for only 2 months and EYESIGHT has failed us. We took it back to the dealership and they supposedly recalibrated everything and updated the software and possibly the firmware. It failed again while driving it home from the dealership, and after 10 days we took it back...

What can you fit in your Ascent? Check it out and add...

2019 Ascent, Tesla 3 Performance, CyberTruk on order - previously had 2009 WRX, 2011 Outback, 2015 Impreza, 2017 Outback There are only 10 types of people in the world, those who understand binary and those who don't!

Battery replaced with SOA821B900 - Subaru Ascent Forum

I took my 2021 Ascent to the dealer for the ground bolt recall today. I also mentioned that I've had to jump start my car a few times after it sits unused for a few days. My battery tested to 508 COA (defect sulfation/ degraded). I was hoping for the B600 battery mentioned in another...

Engine oil leak at 19,000 miles - Subaru Ascent Forum

I just had an oil change on our 2022 Ascent where they found oil leaks at the upper and lower oil pan as well as the left cam carrier. They are going to fix this under warranty but I'm shocked that an engine with so few miles on it should have developed oil leaks and am now contemplating...

CVT Service Interval - Fluid Change | Subaru Ascent Forum

Since I am new to Subaru and CVTs, I do not have an idea of how often to change the CVT fluid. The manual says to inspect the CVT fluid at 30K and does not give a replacement schedule. I live in the hot south Houston area and have ~26K on the Ascent already. Some of you long time Subaru owners...

Is there much difference between the 2020 vs 2022 | Subaru Ascent Forum

I'm eyeing up the 2020 touring and the 2022 touring! The 22 is a couple thousand more but I'm ok with that if it's the "better" option. What are the differences between the 2020 and 2022?
