Help! "Vehicle coolant is low - schedule service" alert

I have been driving the car short distances (about 4-5 miles each trip), however yesterday the warning started alerting more frequently, so i messaged the service team asking if there is a concern driving the vehicle, and they responded with: "Without inspecting the vehicle we wouldnt be able to advise.

Unable to add new vehicle to my Tesla account | Tesla Motors Club

When you purchase a Tesla vehicle from a third party, you must add the vehicle in the Tesla app to claim ownership of the vehicle and get access to features like Supercharging and roadside service.

"Power limited - OK to drive. Vehicle may not restart" message

Vehicle may not restart" AND "Acceleration and top speed reduced" A month ago I got " The electrical system is unable to support all features. Shutting down features to conserve energy " I also got something along the lines of 12 volt battery power low transferring high voltage power. So far everything is ok.

Vehicle Shutdown; Pull over safely | Tesla Motors Club

Even though there was a message that said "vehicle shut down, pull over safely", I couldn't put the car in Drive to pull over even if there was a shoulder. The message also said that exiting and reentering the vehicle may fix it. I opened and closed the door (I wasn't about to get out of the car on the freeway) but that didn't help.
