a.c.e. acronym meaning

How to convert these strange characters? (Ã«, Ã, Ã¬, Ã¹, Ã)

My page often shows things like Ã«, Ã, Ã¬, Ã¹, Ã in place of normal characters. I use utf8 for header page and MySQL encode. How does this happen?

Difference in pronunciation between: a, á, ã, â and à

Could I get a few people to explain the difference in pronunciation between a, á, ã, â and à in Portuguese using English comparisons (if possible)? I can't seem to find a thread or other Web site that addresses them each clearly. Thanks!

"â€™" showing on page instead of - Stack Overflow

So what's the problem, It's a ' (RIGHT SINGLE QUOTATION MARK - U+2019) character which is being decoded as CP-1252 instead of UTF-8. If you check the Encodings table of this character at FileFormat.Info, then you see that this character is in UTF-8 composed of bytes 0xE2, 0x80 and 0x99. And if you check the CP-1252 code page layout at Wikipedia, then you'll see that the hex bytes E2, 80 and ...

HTML encoding issues - "Â" character showing up instead of

I had the problem that showing Â instead of » , amd When Using this solution the problem solved but there is a php warning: Warning: session_start(): Cannot send session cache limiter - headers already sent (output started at D:\Program Files\wamp\wamp\www\projects\kerala\kerala_public_html\edit\business_details.php:1) in D:\Program Files\wamp\wamp\www\projects\kerala\kerala_public_html\user ...

A/L [annual leave] | WordReference Forums

Hi! I've been wondering about this for a good chunk of my day. Why is there a slash in "A/L" (annual leave, used quite frequently by people at work)? A search on google returned nothing, possibly because the search gets diluted by a lot of other similar abbreviations. If anyone here knows why...

How can I remove a Git branch locally? - Stack Overflow

As far I can understand the original problem, you added commits to local master by mistake and did not push that changes yet. Now you want to cancel your changes and hope to delete your local changes and to create a new master branch from the remote one. You can just reset your changes

and reload master from the remote server: git reset --hard origin/master If you have some important ...

what is the difference between a++ and ++a or a-- and --a in java?

Questions asking for code must demonstrate a minimal understanding of the problem being solved. Include attempted solutions, why they didn't work, and the expected results. See also: Stack Overflow question checklist

How to fix a "No process is on the other end of the pipe" error in SQL ...

The server was set to Windows Authentication only by default. There isn't any notification, that the origin of the errors is that, so it's hard to figure it out. The SQL Management studio does not warn you, even if you create a user with SQL Authentication only. So the answer is: Switch from Windows to SQL Authentication: Right click on the server name and select properties; Select security ...

git: how to rename a branch (both local and remote)?

I have a local branch master that points to a remote branch origin/regacy (oops, typo!). How do I rename the remote branch to origin/legacy or origin/master? I tried: git remote rename regacy legac...
