

analytical commentary

AI generated article from Bing

Analytical Chemistry - ACS Publications

The latest special issues, themed collections, calls for papers, and news in analytical chemistry and measurement science from ACS journals.

Analytical Chemistry Journal - ACS Publications

Read current and featured research from the Analytical Chemistry on ACS Publications, a trusted source for peer-reviewed journals.

Fundamental and Applied Reviews in Analytical Chemistry 2025

Our annual Special Issue on Fundamental and Applied Reviews in Analytical Chemistry provides authoritative critical reviews on selected topics, including the highlights and current development trends in the literature and the limitation, challenges, and future trends on the topic.

CRISPR Enzyme Kinetics for Molecular Diagnostics | Analytical Chemistry

We use the model to develop analytical solutions for reaction kinetics and develop back-of-the-envelope criteria to validate and check for consistency in reported enzyme kinetic parameters.

AGREE—Analytical GREEnness Metric Approach and Software

For some analytical applications, it is crucial to ensure simplicity, whereas, for others, the main focus should be on minimizing the use of reagents and generation of wastes. Therefore, the possibility to assign weights to criteria based on their importance in a given scenario is highly desirable.

Do Aptamers Always Bind? The Need for a Multifaceted Analytical ...

The results clearly indicate the need for a multifaceted analytical approach, to unequivocally establish the actual detection potential and performance of aptamers aimed at small organic molecules.

Analytical Chemistry Vol. 95 No. 15 - ACS Publications

Read research published in the Analytical Chemistry Vol. 95 Issue 15 on ACS Publications, a trusted source for peer-reviewed journals.

Determination of Size and Concentration of Gold Nanoparticles from UV– ...

Analytical Chemistry 2025, 97 (34) , 18460-18468. <https://doi.org/10.1021/acs.analchem.5c01135>
Tohid Baradaran Kayyal, Taylor Thorsen, Michael Marciniak, Ayden Roberts, Marie-Christine Daniel.
Dual Role of Dendronized Gold Nanoparticles as Both Catalyst and Cargo-Loading Core in the Formation of Gold Nanorattles.
