Lapop Mouse Setting On Windows 8.1 - Microsoft Community

I Just upgrade my windows 8 to windows 8.1, but here is the problem.. my mouse scroll on laptop doesn't work properly untill once I set it up from driver properties.

Touchpad is not working - Microsoft Community

6. Make sure the latest driver for the touchpad is installed (you may need to use an external USB or Bluetooth mouse), If the issue persists, this might be an issue due to outdated or corrupted touchpad drivers on the computer. I suggest you to update the drivers from the Device Manager and check if it helps to resolve the issue.

Windows 7: mouse freezes & zooms in/out of webpages

I don't agree. I have plugged in two different mice and the problem persists, driving me nuts! The touchpad also has the same frustrating behavior. I have looked at all mouse driver configurations and all check out OK. At this point I am about to reload Windows, which is another frustration and timewaster in its own right.

Black screen with a blue loading cursor - Microsoft Community

1. Disconnect all external devices: This includes external monitors, USB devices, etc. Keep only the power supply, keyboard and mouse. 2. Re-plug the memory and graphics card: If you are familiar with hardware operation, you can try to re-plug the memory stick and graphics card to make sure they are well connected.

Mirage driver got driver problems and mouse problem

Original title: Troubleshooting and mouse problem Okay I have this problem that i went troubleshooting my computer and it came up and said "Mirage driver got driverproblems" Or something like that, What should i do? And i have this other problem that my G9x Laser mouse from Logitech stopped working right.

Mouse freezing when typing (READ FULLY) - Microsoft Community

Update the Touchpad driver from the PC maker's Support Downloads web page, using the full model number, Serial Number or Dell Service Tag on sticker. Compare the latest drivers available for download with the ones presently installed in Device Manager reached by right clicking the Start

Menu.
