BSOD FATAL ERROR Constantly... Dear All, This is the first time I have joined this community regarding my newly assembled PC fatal errors, which i have been facing from the last 45 days. My new PC is only 2months old and all the hardware's and components are new and under warranty. My assembled PC configuration is:--- MB - ASUS ROG STRIX X299 ...

Windows 10 Disk maxing out constantly and being hung up and waiting ...

Windows 10 Disk maxing out constantly and being hung up and waiting all the time I have Windows 10 and I am experiencing two major issues. I do not have any games loaded, nor do I play video games. While I am on the computer, the computer is constantly going through some sort of functions, with the light always flickering.

Win 10 update to 20H2 from 1909 has constantly failed

Win 10 update to 20H2 from 1909 has constantly failed I have tried all the suggested fixes apart from a clean system install. I have no desire to reinstall all the games and programs deleted by a system reset through the settings/recovery/ keep all your files process so please help.

Some software services keep crashing - Microsoft Community

Hello, I have several software services that once they attempt to connect they fail. Such as java, and steam (so far thats what I found out). I tried reinstalling the softwares, updating OS, drivers,

DPC Watchdog Violation (constantly, at least once per day)

DPC Watchdog Violation (constantly, at least once per day) Every day I am getting BSoD, I have looked into it, upgraded all drivers. Once dump said it was my video driver so I downgraded it to the last known good config (before crashes started happening). I have had no further troubles for about 9 days, now it has started again. Win 8.1 Pro x64

I cannot save an edited .docx file in Word 2016. I get constantly a ...

I get constantly a message that "Auto Save Failed" I have Office 2016, which I've been using for three months. I received a Word document by email. I opened it and tried to saved it under a new name, and got the message that AutoSave Failed. After numerous attempts, I finally managed to save the document with a new name in my Documents folder.

Only 2 Programs = HUGE CPU (100%) Usage Constantly - How do I lower ...

Only 2 Programs = HUGE CPU (100%) Usage Constantly - How do I lower their usage allotment Hi, I wanted to know if I can limit the usage (for 2 programs I use only) - on my CPU usage (as seen in the Task Manager). I have XP, SP3, 2G RAM, & have reloaded windows recently (this is not a virus or malaware problem).
