## **Tittles and Dropdown menus too big - Microsoft Community**

I was working in Photoshop and I don't know how but suddenly some things in my OS became too big. As you can see, tittles, toolbars and drop-downs menus are very much larger than before. Can someone

## **Broken Video Playback on Lower Refresh Rate Monitor**

It wouldn't just skip and call it quits on the skipped frames, it would come back to them, making the video impossible to watch), along with slow downs (instead of 30fps, it would drop down to those 30 frames over 1.5-2 seconds, before speeding back up and recovering), makes video playback on the second monitor impossible.

## **Drop Down Menus - Microsoft Community**

Drop Down Menus How do I stop drop down menus from popping up every time I move the cursor? I move the cursor to change a word, and get a drop down menu for "Inspect Element" "Add to bar?" etc., which BLOCKS the space where I want to change the word (or the font, or whatever). This happens mostly when composing e-mail, but also when in ...

## **Windows 10 Cannot Change Time Zone - Microsoft Community**

My Windows 10 computer is set in Pacific Time, and when I try to change it to Eastern, I select it from the drop down and it changes back once the time syncs. There is no option to set the time

## **Sandboxie is Drop D3D support From v5.55.11???**

Drop D3D support on Sandboxie??? Because Crypto-virus, I distrust any game from Personal developers, I need Sandbox to play some 3D games. PS:I can play 3D Game without Sandboxie.

...

I have been tinkering with some code to drag and drop one or more selected items from one listbox (multi-column) to a second list box. When the drop is complete the items selected in the first list

## **How do I drop and drag a distribution list - Microsoft Community**

How do I drop and drag a distribution list How do I drop and drag a distribution list Answer A. User Replied on September 27, 2011 Report abuse

## **Can't drag and drop files - Microsoft Community**

Can't drag and drop files For some reason, I can no longer drag and drop files or folders using my mouse in Windows 7. I hold down left-click on a file and then move my mouse, but the file does not move with the mouse. This problem occurs intermittently. Sometimes it works, sometimes it doesn't.

## **How do I copy conditional formatting from one worksheet to another in ...**

I am using Office 2010 and created a spreadsheet that I use to track monthly bills to reflect them as paid and show a remaining amount outgoing for the month. I used Data Validation for a drop down

## **Intermittent dropping of the internet on Windows10**

I have had intermittent dropping of the internet since I installed Windows10 over a year ago. Have looked at the many community questions on the same subject but have found no real solutions. Tried
