Addictionary® - Recovery Research Institute

ABUSER (Stigma Alert) A person who engages in heavy use of a substance without exhibiting impaired control over the frequency and amount of use (or other reward-seeking behavior, such as gambling). In experimental research, the word “abuser” was found to increase stigma, which can affect quality of care and act as a barrier to treatment-seeking in individuals suffering from addiction ...

Recovery Definitions - Recovery Research Institute

Visit the post for more. Recovery Definitions There is no single definition of recovery. Many people interpret recovery to be complete abstinence, while others believe this term is synonymous with remission, and still others associate recovery with quality of life indicators. See the table below for a progression of different definitions of recovery over time: Definitions of Recovery (J.F ...

Recovery 101 - Recovery Research Institute

Visit the post for more. What is Recovery? Recovery from a substance use disorder is defined as a process of improved physical, psychological, and social well-being and health after having suffered from a substance-related condition. There are several other ways in which recovery can be defined – some, for example, mention the resolution of a substance use problem, while others specify ...

Inclusive Language Guidelines

The guidance offered is intended to be used in conjunction with, not in place of, those guidelines. Various APA publications also influenced the information presented within, namely the Equity, Diversity and Inclusion Framework (APA, 2021b); numerous policy resolutions and practice guidelines; and the APA Dictionary of Psychology (APA, n.d.).

Cognitive-Behavioral Approaches (CBT) - Recovery Research Institute

Visit the post for more. Cognitive-Behavioral Approaches (CBT) The common underlying assumption of these cognitive-behavioral approaches is the theory that unproductive or maladaptive thinking and behavior is the root cause of the problems. Consequently, the clinician helps the person see this and teaches them new cognitive and behavioral skills to overcome the problem. WHAT ARE THE ORIGINS OF ...
