Guide for authors - Engineering - ISSN 2095-8099 - ScienceDirect

Research Article (up to ~6000 words, including 3~5 keywords, an abstract, an introduction, main body, brief subheadings, a conclusion, figures or tables, and references.) are original, unpublished primary research. They are expected to discuss hot topics, areas of interest, challenges, and prospects in engineering science and technology (EST) development, and present a major and cutting-edge ...

Engineering | Journal | ScienceDirect.com by Elsevier

The official journal of the and is an international open-access journal that was launched by the Chinese Academy of Engineering (CAE) in 2015. Its aims are to provide a high-level platform where cutting-edge advancements in engineering R&D, current major research outputs, and key achievements can be disseminated and shared; to report progress in engineering science, discuss hot topics, areas ...

AI literacy and its implications for prompt engineering strategies

Artificial intelligence technologies are rapidly advancing. As part of this development, large language models (LLMs) are increasingly being used when humans interact with systems based on artificial intelligence (AI), posing both new opportunities and challenges. When interacting with LLM-based AI system in a goal-directed manner, prompt engineering has evolved as a skill of formulating ...

Biosystems Engineering | Journal | ScienceDirect.com by Elsevier

Biosystems Engineering publishes research in engineering and the physical sciences that represent advances in the understanding and management of the performance of biological systems for sustainable developments in land use and the environment, agriculture and amenity, bioproduction processes and the food chain. The subject matter of the journal reflects the wide range and interdisciplinary ...
