## Condoapartment -

What defines a condominium is the form of ownership. The same building developed as a condominium (and sold in individual units to different owners) could actually be built at another location as an apartment building (the developers would retain ownership and rent individual units to different tenants).

有什么区别suite 和apartment? - 知乎

“Apartment: A unit consisting of a private room or rooms in a multi-unit building with many other similar units. A small, enclosed home surrounded by the small, enclosed homes of a dozen-or-more other people. Your own piece of a shared property. Suite: This only applies to hotels/motels. Instead of the usual single room hotel arrangement, a suite is a set of rooms separated by walls ...
