Which is better? BDO or FF14? : r/MMORPG - Reddit

FF14 is a tab-target PVE & quest based themepark. The main gameplay loop is running through the main quest, and then advancing through boss/raid content, and/or collecting special cosmetics. Progression is reset at the end of every patch cycle. There's also professions and side-content, which have relatively complex systems behind them.

What makes FF14 more popular than ESO - Reddit

FF14 is popular because it has refined a lot of the elements that Everquest (and, later, WoW) pioneered. It has combat that's familiar, a questing format that's easy to understand, and an endgame that's generally pretty easy to get into with various ways to reach the ilvl cap. But, for most, yeah: it's the story.

FF14 application constant crashing - Square Enix

FF14 can have issues running from the non-OS drive, which sometimes can result in crashes. Try freeing up space on your C drive and install the game client to that drive and see if that helps.
