Yes No

Google Fiber Community

Screen says Google Fiber authenticating, this may take a moment, but it hasn't changed in 20 minutes Can I use the old google fiber tv remote for the new Google Chromecast with TV View all

YouTube TV for GFiber customers - Google Fiber Help

YouTube TV is a subscription streaming service that lets you watch live TV from major broadcast and 70+ popular cable networks. Watch local and national live sports, breaking news, must-see shows

Why is my fiber jack blinking red - Google Fiber Community

A blinking red light on the Fiber Jack generally indicates an issue with the connection to the home or the Fiber Jack itself. Please try rebooting the Fiber Jack by disconnecting the power for a full 30 seconds, then give it ~two minutes to start back up.

Check for wireless driver updates - Google Fiber Help

Visit Microsoft Update, click Custom, and then wait while Windows XP looks for the latest updates for your computer. Install any updates related to your wireless adapter.

Is Anti virus software included with internet service? - Google Fiber ...

Google Fiber does not provide anti-virus software. You will need to purchase it from a 3rd-party company. You can learn more about Fiber Network Security in this Help Center article.

GFiber for multi-family properties - Fiber Properties Help

We define a multi-family property — or multi-family dwelling unit (MDU) — as a residential property with five or more units. MDUs contain multiple residences (for example — apartment buildings, condo complexes, and gated communities are all MDUs.) If you live in an MDU and you decide to get GFiber, you'll get it for your whole property.

Dialpad and Google Fiber for Business

Dialpad and Google Fiber for Business We've partnered with Dialpad to offer phone service to our business internet service customers. What is Dialpad? Dialpad is a third-party phone service offering a software-only VOIP service that can be accessed anywhere and on any device.

How to set 2.4 ghz wifi - Google Fiber Community

Typically, customers will simply add a 5 to the end of the network name. However, if you have the Google WiFi devices we also offer, the frequencies cannot be split. If you have a different type of router, you would need to check the router guide for this option. Gregory, the Google Fiber team

Check your network adapter - Google Fiber Help

Check the network adapter in your wireless device (computer, phone, tablet). If it is not using the 802.11n (wireless-N) protocol, consider updating it to one of the latest network adapters that does
