Foreign Minister Kamal Kharrazi's statement, days before the arrival of UN inspectors, appeared to signal that Iran would seek to meet an Oct. 31 deadline to prove that its nuclear program is for producing energy, not weapons.

Ontario to create new power authority - EF News

- The Ontario government will take its first step toward dealing with chronic shortages of electricity by establishing a new agency, the Ontario Power Authority, to buy electricity for the province, senior government sources say. The new authority, along with a new pricing procedure to be introduced ...

The low-carbon diet - EF News

The low-carbon diet- EF News "There is also a cultural explanation: We tend to have a culture of consensus on the really important issues," said Odgaard. "It goes back hundreds of years in Denmark, that tradition of finding a common strategy. And we saw it come together again after the crisis of the 1970s. We decided as a society that the issue of energy was so vital that we would raise it ...
