## Hermaphrodite Cat | TheCatSite

We took in a "spayed female" that turned out to be a hermaphrodite - the original owner didn't understand the vet due to a language barrier. Anyway, ZsaZsa was a cryptoorchid (had undescended testicles) and had to have exploratory surgery to be castrated, too. It wasn't necessary due to behavioral issues, but because of an increased risk of ...

## Question of the Day, Saturday, January 17 | Page 2 | TheCatSite

I make pour over coffee with mostly organic decaf and a couple spoons of organic regular coffee with full fat oatmilk.

## Behavioural issues in a young rescued cat after prolonged isolation

This 100% - it doesn't take long for an active young cat to learn that a certain word or phrase means "PLAYTIME" and it can be used to distract them if things are getting a bit heated in cat vs. cat play! I use the exact same phrase, "You Ready???" and they both stop and look at me, because it signals interactive play with me - usually me throwing toys for them to play fetch. My previous cats ...
