Haunting Adeline- how dark is it really? : r/fantasyromance - Reddit

Haunting Adeline was like a Disney movie compared to hunting Adeline. I thought I needed therapy after the first book but the second one was more fucked. I completed reading them but wouldn't again. I like dark romance but this just wasn't for me.

I hated this part in Haunting Adeline! : r/books - Reddit

I also read a couple more HD Carlton's books. There was a bit of rapey ness in Does it hurt? but her Satan's Affair book, which is a book about Sibby, a character from haunting/hunting Adeline but Sibby's sex is more so just aggressive and not rapey. I read the sequel, and that was even worse. made barely any sense in parts, zade was beyond hypocritical and stupid dealing with her PTSD, and overall I just think they both were written terribly and were unbearably ...

Discussion on Satan's Affair by H.D. Carlton : r/RomanceBooks

If you were intrigued with Zade in satans affair, you will love him in haunting adeline! I will admit, satans affair wasn't the best written and was definitely cringy at times but I'm almost finished with the first Haunting Adeline book and I can not put it down.

Hunting Adeline by H.D. Carlton : r/RomanceBooks - Reddit

Can anyone list the chapters or page numbers to avoid if I am trying to avoid the rape scenes while Adeline is being held captive? I am fine with torture but would prefer to avoid reading the really intense sexual assault scenes.
