How many words in a 5 min speech? | Bored Of Studies

A 5 min speech in my experience is about 750 - 800 words in my experience. Then again, that's the pace of how I speak. If you spoke fast, you might be able to cram in 900 words. Definitely don't go for over 1000 words. I've got pretty reasonable marks for 5 min speeches too. (17/20, 13/15)

writing a 10 minute speech.. - Bored Of Studies

im writing a 6 mins speech with 1.5 page and 800 words. so a 10 mins speech will be about 2 pages and 1350 words. I just did a 13min speech for TAFE and that was 1800-1900 words.

How many words for a 6min Speech? | Bored Of Studies

I think 100 words per minute would be more than enough, unless you are very confident on what you will talk about. Too much information has lost me some marks in my last speech.

How many words can you say in a 5min speech?

I definitely intend to do this for my next speech; good idea! I don't think I can remind myself in my head; there's too much to think about; like whether I looked at the audience in the last 5 seconds or not! :uhhuh:

Repost- How many words would a five minute speech be

How many words do you say in a 5 minute speech. I understand that it is different with everyone but I would like to know a rough estimate because it will help me plan my speech out.

how do u a 5min speech? | Bored Of Studies

i have a 5 minute speech to do on the Shipping News on whether the global is better than the local or vice versa. i havent done a 5minute speech before. Any advice on how to keep an audience interested for so long? And also, how points or arguments should be made during it? or do u make a cpl and then expand on those couple thourghout the speech?
