12 Easy Exploits to Raise Thief Skills in Skyrim :: Null Byte

Skyrim's intelligent new leveling system has trumped the former methods of spamming repeated moves to raise levels quickly. Rather than casting a spell, or jumping up and down constantly, the new system requires that we use our skills in practice to get experience for them. This causes leveling to be a thing that doesn't happen so often.

How to Find Passwords in Exposed Log Files with Google Dorks

The advanced application of Google search operators is Google Dorking — using search operators to hunt for specific vulnerable devices through targeted search strings. If we assume that Google has indexed most devices accidentally exposed to the internet, we can use the text we know appears in their login or administrative pages to find them. What Kinds of Things Do Dorks Connect to the ...

18 Easy Exploits to Raise Spellcasting Skills in Skyrim

Skyrim's experience system is more intelligent than its predecessors. Before, a player could raise their skills simply by casting a spell repeatedly, or jumping over and over (if you were an acrobat). The new engine in Skyrim only grants experience when the skill is used in a practical manner.

Nmap :: Null Byte

Discover the power of Nmap, the leading open-source network scanning tool designed for security auditing and network discovery. With its robust features,...

How to Scrape Target Email Addresses with TheHarvester

To initiate a harvester search, you'll need to spell out a couple variables for the script to understand. With each command, theHarvester will run searches on multiple platforms to find email addresses and websites related to the organization or domain you specify. If you have a screen name for your target, this will suffice.

Don't Be a Script-Kiddie part1: Introduction to Shell Script

In programming and hacking culture a script kiddie or skiddie1 (also known as skid is an unskilled individual who uses scripts or programs developed by others to attack computer systems and networks, and deface websites without knowing how the programs work, it has nothing to do with newbie or amateurs, skrip kids are just dumb and lazies, different from amateur and newbies they don't want to ...

Midas Magic Spell Overhaul [MOD]: Now on Skyrim :: Null Byte

Long story short, this is a mod by Xilver, who once upon a time did a spell mod called Midas Magic: Spells of Aurum, for TES Oblivion. Well, now he made one for TES Skyrim.

How to Phish for Social Media & Other Account Passwords with BlackEye

BlackEye is a tool to rapidly generate phishing pages that target social media websites, making it much easier to phish targets of opportunity on the same network. After redirecting a target to the phishing page, it's easy to capture passwords to social media accounts harvested from unwitting targets. BlackEye for Social Media Phishing Users place a lot of trust in their social media accounts

...

9 Easy Exploits to Raise Combat Skills in Skyrim :: Null Byte

So, no more spamming the controller, casting the same spell, or jumping repeatedly to gain levels like we could in Oblivion. A lot of you ate up the Skyrim guide I posted for raising spellcasting skills to 100 quickly.

How to Run USB Rubber Ducky Scripts on a Super ... - WonderHowTo

If you don't care about some of the fancier features of the USB Rubber Ducky, like the ability to change the firmware and its regular thumb drive look, the Digispark is a great way to get started writing your own payloads. Whether you have experience with Arduino or writing Ducky Scripts, it's easy to build your payloads to do whatever you want to a target computer when it's plugged into an
