## Universal PCL3 driver - HP Support Community - 5431378

Hi Chris, There is the HP PCL3 Class driver within Windows 10, that can be used as a generic driver. Be aware that it will only work for USB connection if there are any sort of drivers for your printer, otherwise it will fail to communicate with the printer, any PCL3 printer can be used with such through the network. What are the printer models? Is there any sort of support listed below ...

## Solved: Is there a Universal Print Driver for Windows 11 for HP Desk ...

I had tried MANY times to get the printer drivers to download for an HP Deskjet 4158e multi-function printer, but although windows knows the correct driver, it says either the driver is unavailable or it can not be found. Both various HP and Microsoft customer service personnel say to go to the ot...

## error PCL3 - HP Support Community - 9062211

The error code "PCL3" on an HP printer usually indicates a problem with the Printer Command Language (PCL) that the printer is using. PCL is a language that printers use to interpret and print documents.

## Why do PBr<sub>3</sub> and PCl<sub>3</sub> have larger bond angles than PH<sub>3</sub>?

(Source: PCl<sub>3</sub> PBr<sub>3</sub> PH<sub>3</sub>) There was a previous question on Stack Exchange about the bond angle difference in PF<sub>3</sub> and PH<sub>3</sub> here: PF<sub>3</sub> and PH<sub>3</sub>, but the accepted answer mentions back bonding as a factor to increase the bond angle in PF<sub>3</sub>.

## Reaction of carboxylic acid with phosphorus trichloride

The reaction of carboxylic acid RCOOH R C O O H with PCl<sub>5</sub> P C 1 X 5 / SOCl<sub>2</sub> S O C 1 X 2 / PCl<sub>3</sub> P C 1 X 3 yields an acyl chloride RCOCl R C O C l. With PCl<sub>5</sub> P C 1 X 5 and SOCl<sub>2</sub> S O C 1 X 2 the reaction is quite simple utilizing one mole reactants and yielding products. But in case of PCl<sub>3</sub> P C 1 X 3 the balanced reaction is as follows:

## Can't install the PCL3 driver for the HP DesignJet T730

The V4 driver posted is a PCL3 language driver. Do not confuse the V3/V4 driver designation with the PCL language as they are different things and you can get V4 drivers that use different PCL coding. Below is the driver information tab after installing the V4 driver on my system.
