Joplin

Access your notes from your computer, phone or tablet by synchronising with various services, including Joplin Cloud, Dropbox and OneDrive. The app is available on Windows, macOS, Linux, Android and iOS.

Downloading Joplin...

To synchronise your notes on all your devices, whether it's on desktop, mobile or tablet, and to share notes with others, try Joplin Cloud! Joplin App for Mobile

Installation | Joplin

There are a number of unofficial alternative Joplin distributions. If you do not want to or cannot use appimages or any of the other officially supported releases then you may wish to consider these.

What is Joplin? | Joplin

Joplin is a free, open source note taking and to-do application, which can handle a large number of notes organised into notebooks. The notes are searchable, can be copied, tagged and modified either from the applications directly or from your own text editor.

Desktop application | Joplin

Desktop application For general information relevant to all the applications, see also Joplin home page.

Joplin Terminal Application

Joplin is a free, open source note taking and to-do application, which can handle a large number of notes organised into notebooks. The notes are searchable, can be copied, tagged and modified with your own text editor.

Joplin for Research

Joplin enables you to store all your notes, ideas, and lists in one convenient location. With its synchronisation feature, you can access your information at home or on the go.

News | Joplin

Joplin 3.5 includes about 114 bug fixes across desktop and mobile, addressing issues in editing, syncing, importing, rendering, and general stability. Many fixes target edge cases that could lead to crashes, inconsistent behaviour, or rare data loss scenarios.

Using Joplin

But on first use, there are a couple things to do to make the most of Joplin. If you had been using another note-taking application and want to migrate those notes into Joplin, then you must first export them from your previous application and import into Joplin (see Importing and Exporting).

FAQ | Joplin

Joplin synchronises with file systems using an open format however it does not mean the sync files are meant to be user-editable. The format is designed to be performant and reliable, not user friendly (it cannot be both), and that cannot be changed.
