What type of installation should I do? (Dual Boot / Live CD / Fresh Install / Virtual Installation)

What Is Linux

Beginners Level Course: What is Linux? Linux is an operating system that evolved from a kernel created by Linus Torvalds when he was a student at the University of Helsinki. Generally, it is obvious to most people what Linux is. However, both for political and practical reasons, it needs to be...

What's new - Linux.org

What's new - Linux.org - Friendly Linux Forum Hi guys, I need help. I could not find any way to solve it. I have trouble with setting up. I am using a Casper Nirvana (i7 3 with 1TB hard drive and 16GB RAM) and I wrote many distributions to many USBs, but the Casper didn't see the USB in BIOS. I cannot find any way to solve it, and I also tried to update my BIOS with USB, but it didn't see the ...
