How can I set the logging level with application.properties?

This is very simple question, but I cannot find information. (Maybe my knowledge about Java frameworks is severely lacking.) How can I set the logging level with application.properties? And logging...

App must target Android 15 (API level 35) or higher

2 I received a warning from Google Play Console that my app must target Android 15 (API Level 35) or higher. Until now, my app has been targeting SDK 34. Here is my current build.gradel setup:

sql - How to find current transaction level? - Stack Overflow

How do you find current database's transaction level on SQL Server?

I'm getting an IndentationError (or a TabError). How do I fix it?

Make sure each statement is indented by four spaces per indention level (see How do I indent my code?). However, if you already have a large program that you've mixed tabs and spaces into, there are automated tools that can be used to convert all of your indentation to just spaces.

Why use a READ UNCOMMITTED isolation level? - Stack Overflow

In plain English, what are the disadvantages and advantages of using SET TRANSACTION ISOLATION LEVEL READ UNCOMMITTED in a query for .NET applications and reporting services applications?

logging - When to use the different log levels - Stack Overflow

DEBUG – less granular compared to the TRACE level, but still more than you will need in everyday use. The DEBUG log level should be used for information that may be needed for deeper diagnostics and troubleshooting. INFO – the standard log level indicating that something happened, application processed a request, etc.

WITH (NOLOCK) vs SET TRANSACTION ISOLATION LEVEL

READ UNCOMMITTED

12 You cannot use Set Transaction Isolation Level Read Uncommitted in a View (you can only have one script in there in fact), so you would have to use (nolock) if dirty rows should be included.

How can I calculate audio dB level? - Stack Overflow

I want to calculate room noise level with the computer's microphone. I record noise as an audio file, but how can I calculate the noise dB level? I don't know how to start!

java - Get battery level and state in Android - Stack Overflow

How can I get battery level and state (plugged in, discharging, charging, etc)? I researched the developer docs and I found a BatteryManager class. But it doesn't contain any methods, just constant...

android - What does API level mean? - Stack Overflow

I am wondering what exactly API level means. I couldn't seem to find an answer by searching on Google. Could anyone please explain what the term API level means?
