Long term effect of Lyrica? - Drugs.com

I have been on Lyrica for 9+ years. I am beginning to question this long time use, questions like, "What kind of effect will Lyrica have on my memory", or "will Lyrica change the way my brain develops?" I wonder about the way my synapses are forming, is the Lyrica making them "lazy"? Just random questions, thank you for helping me.

Does trazodone make you sleepy? - Drugs.com

Official answer: Trazodone can help you sleep, and sleepiness is a side effect of the medication. Doctors will sometimes prescribe...

Pregabalin - Does Lyrica make someone really tired? - Drugs.com

I've been prescribed Lyrics and PMS fluoxetine to treat my GAD, lyrica 75 mg twice a day, and it's making me really really tired. Yesterday I had fast heart rate, my doctor told me to keep taking them and if this happened again I should take have the amount she gave me, meaning one pill daily. It's kinda scaring me, because I don't have energy in my body at all, and I'm feeling slightly ...

Can you take Lyrica on a prn (as needed) basis? - Drugs.com

Personally stay away from lyrics gabapentin or neurontin if you would ever want to or need to stop those medications withdrawal is a nightmare. They can be nightmares for side effects when starting them to do some research I am sure you will think twice about those medications they really mess up your brain chemically.

Lyrica? How long before side effects subside? When does the brain fog ...

I'm on my 7th day of Lyrica and the past two days, I have to take 1 - 75mg about 10 or 11 am, then another 75mg - before bed around 9pm - 10pm. I feel so clouded and can't seem to concentrate on anything, helping the nerve pain a bit, but I don't think I've been on the med long enough to help yet. How long do you have to be on this med before side effects go away? I hate feeling wobbly, dizzy

...

How to taper Lyrica correctly? - Drugs.com

I'm on Lyrica, 75mg 3x a day. I'm tapering off 25mg at a time. Right now, I'm taking 75mg in the morning, 50mg early afternoon, and 75mg at night. How should I progress? Take one of the 75mg doses down to 50mg also.. Or take the 50mg down to 25mg? The doctor spreader the doses out like that due to I was getting inter-dosing withdrawal from just two doses. And if it's to take one of the 75mg ...

Is it dangerous to drink alcohol if you take pregabalin?

I take pregabalin for anxiety disorder. My doctor told me it is ok to drink alcohol in moderation on pregabalin and just to miss my pregabalin dose the day I am going to drink alcohol. But I have had some nasty anxiety dizziness and shakiness the day after drinking since I've been on pregabalin. It's not a hangover because I only had 2 glasses of wine. I'm just wondering if it is actually safe ...
