Status of ARM Stable Updates: No Major Update Since March 2024?

Hello, please don't take this the wrong way. I appreciate your time and work on Linux Manjaro, and I understand that some things simply take longer sometimes. As far as I can see, the last major ARM Stable update was in March 2024, which means it's been more than 7 months. Looking back at previous updates, this seems like quite a long time, especially for a rolling OS. I find bug fixes and ...

[root tip] [How To] Make Manjaro compatible with major VPN providers

VPN compatibility Major VPN providers offer a GUI application which handles all aspects of the connection. Every now and then the topics on troubleshooting a given VPN provider surfaces and a lot of topics boils down to DNS and for good reason. Whether you are using an app offered by your provider or you are using configuration files it is of utmost importance you ensure correct configuration ...

What kernel does Manjaro use? - Manjaro Linux Forum

What kernel does Manjaro generally use? Does it use the latest kernel (6.15.2) or does it use LTS (6.12.33) or something else based on curation? I noticed the ISO said 612.

Morc_menu on i3 stopped working (conflicting w/ dmenu-manjaro or ...

The current version in the official repositories is; pacman -Ss morc_menu: extra/morc_menu 1.0+3+g2d89cb6-1 Categorized desktop application menu If you have installed it via the AUR, perhaps the version is older, and no longer compatible. Removing it and installing the repo version might help. Beyond that, I have nothing to add. Regards.

Onlyoffice Desktop-Editors segfault following 2025-02-16 update

Onlyoffice Desktop-Editors doesn't launch anymore on Gnome Wayland: desktopeditors SEGV (DesktopEditors:27794): GLib-CRITICAL **: 14:20:47.504: g_atomic_ref_count_dec: assertion 'old_value > 0' failed zsh: segmentation fault (core dumped) desktopeditors

Problem with prime-run - Graphics & Display - Manjaro

Linux Forum

Hello! I installed video-hybrid-intel-nvidia-prime and I cannot use prime-run to run applications with my nvidia graphic card. xrandr --listproviders also list only one provider. prime-run glxinfo | grep "OpenGL" X Err...

Disabled touchpad while typing -xfce -xinput -startup

Good day, I have 2 new laptops which I have installed Manjaro XFCE and I use xinput commands to allow touchpad to be used while typing for gaming, however trying to create a script to run at startup is beyond my Linux capabilities and my Google/search skills are lacking as I can't find a dummed down enough forum post to teach me, essentially what I want to happen is for the following command ...

After a big update yesterday ssh no longer works although installed ...

Yesterday there was a major upgrade. I use manjaro sway. Before I did the upgrade yesterday the ssh server was working. Now although openssh is installed, when I do "sudo systemctl start ssh" I get the error: Failed to start ssh.service: Unit ssh.service not found Same issue on my other computer with manjaro after upgrade. When I run systemctl.status sshd it says Loaded but inactive. I ...

'kwin_core: XCB error' - reproducible - Manjaro Linux Forum

Yep, they're harmless and basically unimportant. I get them too. Your best course of action is probably to pretend you don't see them . If they really, really bother you, you can turn off QT logging, but be aware that this could also suppress more serious errors if any should arise. Add these lines to the bottom of your ~/.bash_profile : # suppress QT logging
QT_LOGGING_RULES='*=false ...
