Cannot connect to a single, particular Web site URL

There is one-only URL that AT&T will not allow any of my browsers to connect to. {commercial link removed}IP Address: 185.151.196.56 The connection to that URL works perfectly with other serv...

Call forwarding for an account that is not linked to a phone

My cell phone was very recently discontinued from service because the account from 2011 only covers calls and text, which is my preference. The account remains active, but call connections do not. ...

Number of rings - AT&T Community Forums

My calls go to voicemail within 3 rings. I tried to have the number of rings increased. I had a duration of 20 seconds and managed to get it increased to 30 seconds. Now it picks up at 4 rings whic...

Very slow speed with a fiber-optic connection - AT&T Community Forums

My parents signed up for a fiber optic internet and the speed right now was 10 megabits per second! They were better off with a broadband connection which was cheaper. This speed is ridiculous. I t...

Bad ATT service - AT&T Community Forums

We have 3 lines with ATT cell service. 2 stopped working. One of the two was a Samsung Galaxy S7 Edge which is a 4G phone (unlocked). I spent 7 hours with multiple phone calls and...

4g microcell - AT&T Community Forums

Received my replacement micro cell (3g to 4g). I could see (using 3g MC) if I were connected to it. Now with the 4g MC I am either not connected or do not know where to look for connection status (...)
