Is there a computer program like mymathlab that I can download for help ...

This class still utilizes mymathlab, but only the homework is on mymathlab and the homework spans from one full chapter to another. However, the teacher gives us two quizzes every week from the previous lecture. This is a problem because the only way that I can study is through the book and I suck at learning in this manner.

MyMathLab and MyITLab - College Confidential Forums

How many other people have had to use either one of these and ended up finding it maddening? I took a math class that used it and while it was helpful at times, it was annoying. I also took a computer class that taught you how to use Word, Excel, PowerPoint, and Access. We used MyITLab. I already knew how to use these programs, but I couldn't seem to do things the way they wanted me to ...

MyMathLab Gripes - High School Life - College Confidential Forums

So, I'm taking a math course at my school that's online (I tend to prefer online classes) so we're doing most of our homework and quizzes through MyMathLab. There's an exam due very soon also. However, the practice tests are glitchy and when I finally got to the end of one to submit it, it decided to just load indefinitely. I gave it a while (about 45 minutes) before trying to refresh ...

MyMathLab - University of Maine - College Confidential Forums

My calc III class has two textbooks and my Linear algebra has one, and the university bookstore wants me to buy a code for each but I think that might be just so they can screw me out of my money. Is MyMathLab a generic product ...

Who has experience buying books from ebay? - College Confidential Forums

So has anyone else here ever bought from a seller like that on ebay? I'm worried now that I made a bad choice. It seems too good to be true. OH, and has anyone here ever bought an access code from ebay? Like myMathLab or mastering chemistry? I see tons of those, also with excellent reviews.

My Math Lab access code question-- - College Life - College ...

Hi. Does anyone who has used MyMathLab know if the access codes are generic? I mean, if you bought a Calculus book (with a code) but you never used the code because your prof didn't have you go online, can the code be used for another MML class, like College Algebra? My DD is taking College Algebra (with a MML code required) and her cousin has a leftover access code from her Calc ...
