No o Nó - WordReference Forums

No se trata de ningún «truco mágico»; son, simplemente, lógica y razón lingüísticas. Podría explicarte todos mis métodos o «trucos» (lo cual me llevaría un tiempo y un esfuerzo...), pero preferiría que los descubrieses por ti mismo (se aprende mejor así). Si no eres capaz, envíame un mensaje privado y haré los honores. Saludos.

No sé por qué / No sé porqué - WordReference Forums

Es No sé por qué. En esta oración, por es una preposición que expresa causa o motivo y qué es un pronombre interrogativo 1 que representa aquello que se ignora. Esta frase es equivalente a por cuál motivo, por cuál causa. La palabra porqué es un sustantivo que significa razón, motivo, causa y no se podría usar en una oración como la que propones. Sí sería posible en cambio en una ...

If not vs If no - WordReference Forums

"If no" can be used for yes/no questions on forms and in questionnaires, yes. In such cases it means "If your answer is no". I'm not sure whether this is the only context in which "if no" is acceptable: we native speakers aren't taught "rules" about this type of thing. What I can say is that I don't recall using or hearing "if no" in a conversation and can't think of a context in which it ...

Punctuation: No. - omit full stop or not? - WordReference Forums

There is a thread that discusses the abbreviation for 'number': Abbreviation of number - N, N°, Nr, Nbr, No? where the punctuation is discussed peripherally. I write Mr, Dr, etc. without full stops but I generally still write No. with the stop. I have also seen it without.

no ... no ... no / no, no, no [punctuation] | WordReference Forums

The first one tells me those are two desperate no's cried out in isolation with a big time gap between them. That seems logical in view of what follows. In the second sentence the time gap between the no's looks smaller to me and I am left with the impression that those are your casual every-day no-no's that indicate the speaker, while disagreeing, is unimpressed by the prospect of being ...

no + plural or singular noun - WordReference Forums

I find "no" can either be followed by a plural noun or by a singular noun if the noun is a countable one, but I don't know if the two phrases can be used interchangeably to a great degree or should depend heavily on context. I have a hunch that "no + a singular noun" would mean there isn't even...

No picture only sound - YouTube TV Community - Google Help

Can you please provide more details about this issue, including the device? The more detailed, the better.

Abbreviation of number - N, N°, Nr, Nbr, No? - WordReference Forums

The abbreviation "No." is used only in front of an actual number, e.g., No.5 Paragraph No.7 Husband No. 2 If you are using the word "number" as a regular noun, it cannot be abbreviated. The number of projects... A large number of problems...

there is/are no VS there isn't/aren't | WordReference Forums

1) Yes. There is no point, there is no good reason: it is perhaps less common with concrete objects, but 'there is no car park' is quite correct. 2) Uncontracted 'there is' and 'there isn't' have to be followed by singulars cross: There isn't many Range Rovers).

No, they won't. / No, they're not. - WordReference Forums

A: No, they won't. Both forms express something that the speakers currently believe {will/will not}/ {is going to/is not going to} happen at some time in the future.
