Rifle Scopes - Revisiting drop testing | Sniper's Hide Forum

I wanted to start a new thread to avoid detailing @supercondogs Razor LHT thread. .. I'll start by restating my question I asked there (in response to a post by @koshkin stating that small zero shifts in the scope itself almost never occur). I hesitate to open this can of worms, but I'm...

1970 colt gold cup national match - Long Range Hunting Forum

About as away from long range as possible but, if your like me guns are guns. \$2,500 shipped ffl to ffl Check or money order

Best Tuner option for Bergara B14r Carbon, .22LR, 18"

This is one target (best target) from a 100 yd Mini-Palmer race a couple of months ago (Bergara B14R rimfire-no tuner). Possible score was 450-45x. I shot a 449-37x for 1st place, Question?? Should I really expect to shoot much better with any of the current tuners available? I'd like to try one. Suggestions please! Thanks, 7315br

2025 Colorado Elk - Long Range Hunting Forum

I have 18 elk points and plan on burning them this year. I want to rifle hunt first season. Any thoughts ?? I just received the 2024 preference point info and am depressed that I am in "no man's land" at 18 points, good hunts take way more points, most hunts take far less. What app do you feel...

6arc Silencer recommendations | Sniper's Hide Forum

I'm looking for a can for a 6arc bolt gun, so 6mm - 308 bore. Diligent Defense has 9.3oz and 10.5oz models. Otter Creek has 11.9oz and 9.5oz. What else should I look at?

Firearms - Tac ops echo 51 | Sniper's Hide Forum

Echo 51 Was a working gun, unknown rd count \$4500 Scope not included

Preferred RFBR Builders | Page 2 | Shooters' Forum

Rachel Precision in Brandon Ms. Talk to Randy and he will get you lined out..

Suppressor forms approval times are surprisingly fast

Filed forms around 11am on January 1st and on January 2nd at about 10am I received the approval for a Diligent Defense Enticer L. Everything was done back in November up to filing. My LGS had ordered it and had it on hand as I had paid for it then and they agreed to hold it till January. 23 hours is about what it took. I really figured it would longe with many people doing as I did. Now, if ...

Spin Drift | Sniper's Hide Forum

Well running solutions in Applied Ballistics app for zero wind with 123 ELD in a 1-8 twist barrel yields the following: 600 : 12.3 MOA, left 0 MOA 600 with spin: 12.3 MOA , left .3 MOA 1000: 30.7MOA, Left 0 MOA 1000 with spin: 30.7 MOA, Left .8 MOA 1250: 48.3 MOA, left 0 MOA 1250 with Spin: 48.3 MOA, left 1.2MOA Spin drift happens at all ranges so it's technically supposed to be accounted for ...

22 arc build recommendations | Sniper's Hide Forum

I am wanting to build a 22 arc to throw my suppressor on and shoot prairie dogs on my ranch. Everything is flood irrigated so I will be walking around and carrying the gun everywhere. I don't want to spend crazy money because the gun will get abused. I would like a higher capacity detachable mag...
