Diecast kit with pit crew, help!! | Hobbyist Forums

Hello, I have been searching the internet high and low and I cannot find out any information about the collectible I have. It is a #22 Sterling Marlin Ford Thunderbird with the pit crew standing around the car. It was made by Racing Champions Inc. I know it is from 1991 when he drove for Junior...

Need some help determining the value of these cars!

I'm new to the forums, and would love some assistance with pricing the various Nascar Diecast Cars and memorabilia currently laying around the house, taking up much needed space. I'll attempt to list in as much detail as possible without boring you, but my general stock consists of 1:18 and 1:24...

Atlantis Indian Chief | Hobbyist Forums

In November (2024) I built the new Atlantis Indian Chief model kit. It's a very old mold (from Pyro, I think) but as usual, the Atlantis mold technicians have restored the molds to near-pristine condition. The colors on the box art look more like a cigar-store Indian than what a real Chief...

pattos place - Hobbyist Forums

Anyone here ever order and use any of his decals? Amazing selection, but how good are they? I was thinking in particular about dressing up afx can am/ le mans series cars. Will they fit? Thanks for the info, and God bless.💎💎💎💎💎

Gowron! | Hobbyist Forums

Got tired of looking at the 1995 Geometric Gowron kit sitting in my stash, so I finally built him! No way I could have done those big starey eyes in paint...

About sealing foam | Hobbyist Forums

I have a question for those of you who use foam to make your own bases. What is the best way to seal the foam? Ben

Transponders question.... | Hobbyist Forums

I'm seeing a LOT of MRT PTX transponders going up for sale on the boards here, and got to thinking. I've seen where a few tracks are upgrading to the RC4 AMB scoring. Are the (older) transponders not compatible with newer software or something? So if your track upgrades, you have to run out...

Using Wheel Puller and Press - Hobbyist Forums

Either name does the trick, AND they can be had in stainless steel so can be much thinner than the aluminum wheel pullers to get into the tighter spaces. For those "more well heeled", they could even swing for a sterling silver model. Hmm, back to the kitchen to raid it for yet another item for my slot car tool kit.
