Key shortcut for running python file in VS code - Stack Overflow

In VS Code, I'm writing python code. I was wondering if there is a key shortcut to run the file instead of pressing the run button in the right top corner of the screen constantly.

Is there a shortcut to comment multiple lines in python using VS Code ...

Instead of indivually typing out a hash tag in front of each line, is there a way to select a block of code and comment/uncomment everything by only pressing a couple shortcut keys?

How do I create a shortcut via command-line in Windows?

5 To create a shortcut for warp-cli.exe, I based rojo's Powershell command and added WorkingDirectory, Arguments, IconLocation and minimized WindowStyle attribute to it.

Add "Open with Visual Studio Code" shortcut to right click menu

For those who are new to the Registry Editor, here's an additional note for Step 3: Double-click on the (Default) key to open a popup. Enter your value there. If you're entering "Open with Visual Studio Code," that's fine. However, if you're entering a path, remember to wrap your path in double quotes, as shown in the example above. For instance, my icon value is:

python - What is the shortcut key to comment multiple lines using ...

3 this is not the shortcut but an alternative: using 3 single (''') or double quotation marks (""") in the beginning and also at the end of a bunch of lines.

r - Is there a shortcut for %in%? - Stack Overflow

I have searched unsuccessfully for a keyboard shortcut for %in% in R using RStudio. Wondering if anyone here has figured this out? I have tried all the combinations I could think of.

Create a shortcut (.lnk file) using PowerShell - Stack Overflow

I want to create a shortcut with PowerShell for this executable: C:\\Program Files (x86)\\ColorPix\\ColorPix.exe How can this be done?

Run a Command Prompt command from Desktop Shortcut

Is it possible to create a desktop shortcut that, when pressed, will open command prompt and run a pre-defined command?

What is the shortcut to skip all break-points in VS?

When I am at a breakpoint and if I want to ignore all the rest of breakpoints and move on, what shortcut should I use?
