Windows prompts me for credentials when sharing items

I'm sharing files between my desktop and laptop, both on the latest version of Windows 10. Everything was working fine yesterday, but now I'm being prompted for credentials. This should happen, as I have Password-protected Sharing turned off on both PCs.

Other computers not visible on network after Upgrade to Windows 11

Make sure it's not blocking file sharing. Restart Network Discovery: Go to Control Panel > Network and Sharing Center > Change advanced sharing settings, and try turning Network discovery and File sharing off and on again.

Turn On or Off Password Protected Sharing in Windows 10

How to Turn On or Off Password Protected Sharing in Windows 10 When password protected sharing is turned on, only people who have a user account and password on your computer can access shared files, printers attached to your computer, and the Public folders. If you wanted to give access to shared files to other people without an account and password on your computer, then you will need to ...

Guest sharing now available in Microsoft Loop - Ten Forums

Guest sharing now available in Microsoft Loop We've heard from many of you that you'd love the flexibility to work in Loop with people outside of your organizations. Now we're making that possible, with guest sharing of Loop workspaces, pages, and components.

Start or stop sharing with your family

Turn on Share Google One with family. For more info, learn how to manage a family group. Tip: If you downgrade to a Google One Lite plan (30 GB) from a 100 GB plan or above and have family sharing enabled, your family sharing will be automatically disabled. If you upgrade again to a 100 GB plan or above, you'll need to re-enable family sharing.
