Miter Saw - laser vs shadow line? | The International Association of ...

Hi Jeff, I have a Bosch saw that came with no laser or light. I added an aftermarket laser because it didn't require any modifications. I used it initially, but have since pretty much stopped (after the battery died). I considered adding a shadow line light, but haven't figured out any kind of mounting system yet. Although I haven't used one yet, I think the shadow line would be my preference ...

Magical Skew | The International Association of Penturners

I saw an ad for a Magical Skew made by T. Shadow & CO (DELUXE MAGICAL SKEW - T. Shadow & Co. LLC). I'm interested in hearing from anyone who's used it or who knows where I can find videos of it or something.

Drilling Antlers - The International Association of Penturners

A neat trick is to mount the piece in question between centers, and spin it at med speed and look down at it, you will be able to see a "shadow" of the solid parts as it spins, the narrowest part of that shadow is the maximum size cylinder you can turn from that piece USING THOSE CENTERS. Move the centers around to maximize the size of the shadow.

T-Shadow vs Benson Pace rotary jig for NEJE Master

T Shadow makes one and so does Benson Pace. I need it to be accurate enough to make multiple passes if I need more depth. Does anybody have any experience with either of these. I know that Nancy who is a member here is the rep for Pace and am awaiting a PM from her.

Shadow box | The International Association of Penturners

I finished this shadow box for a friend of mine that's retiring in a week or so. I delivered it this morning, he's very happy with it! I also made him a pen from Honduran Mahogany, and had it engraved by Mike and Jen. He at first said he couldn't accept it, until I said he didn't have a...

Lynn's Floating Pen - The International Association of Penturners

Here is a brief tutorial for adding a drop shadow using Jasc Paint Shop Pro version 8. It turned out to be a 12 step program for some reason. Step 1: Photograph your pen using a high contrast solid background. A sheet of white paper works well for many pens. Download image to your computer and open with PSP 8. Step 2: Adjust photo brightness as ...

Neje rotary jig. - The International Association of Penturners

Another rotary jig is sold by Bob Marquis (Magic Bob here on IAP) t-shadow. www.tshadow.com. Right now the T Shadow jig doesn't do closed-end items. I PM'd MagicBob several days ago and he said they're working on developing one. As far as photos for the Bob (Benson) Pace jig, he's requested that nobody post photos or videos of his v2.0 style jig.

Problems with Engraving Pen Blanks with Neje and Rotary Jig

I have my new Neje 1500 up and running and would like to thank all those whose generous help got me around a couple of obstacles. Now I would like to enlist some more help this time for engraving pen blanks with the rotary jig from T. Shadow. I have been trying to burn the 2nd Amendment as...

Black Lines in my images. | The International Association of Penturners

Darrin, I struggle with the same issue. I built a photo box with 3 led lights (top and sides) and still struggle to produce good pictures. When I use my Nikon SLR, they are ok, I assume I need a micro lens. But when I use my iPhone 7 in the box, I get the same results you do, black shadow like stripes. Here is my photo box, as you can see the led lights are plenty bright. They are 10w each ...

Neje Master 3500 Rotary Jig - penturners.org

Trying here as well - I got a Neje Master 3500 gifted to me with a Rotary Jig made by T. Shadow and Co based on the original Mike Shortness design according to the labels on the boxes. Some parts missing - especially the bearing holders for the roller and some lifts. I have a 3D printer and...
