## **Windows Themes - Microsoft Support**

To get a theme, expand one of the categories below, select a link for the theme, and then select Open. This saves the theme to your PC and puts it on your desktop.

## **Personalize Your Windows Experience With Themes**

To further customize a theme, select the options for Background, Color, Sounds, and Mouse cursor. Each option allows you to personalize your experience to better suit your preferences.

## **How to change or delete themes in Windows 10 - Microsoft Support**

To change your current theme: Click Start > Settings > Personalization > Themes. Under "Change theme", click the tile to switch to the theme you'd like to use. Note: You can also add a wide variety of new, great looking themes from the Microsoft Store by clicking Get more themes in Microsoft Store, or by downloading featured themes from our ...

## **Differences between templates, themes, and Word styles**

To give your document a designer-quality look — a look with coordinating theme colors and theme fonts — you'll want to apply a theme. You can use and share themes among the Office for Mac applications that support themes, such as Word, Excel, and PowerPoint.

## **Personalize Your Colors in Windows - Microsoft Support**

Whether you prefer a light or dark theme or want to add a splash of color to your user interface, adjusting these settings is straightforward and can be done in just a few steps.

## **Create an Outlook theme with Copilot - Microsoft Support**

Choose your theme's topic, style, and refresh cadence. Click Create when you're ready to begin generating your theme. Once your theme is ready, it will be automatically applied to your Outlook app. Your accent color may also be updated to match your new theme.

## **Save a slide design (theme) as a template in PowerPoint**

A theme is a slide design made up of cohesive colors, fonts, and effects such as shadows or reflections. A template includes a theme, but also contains instructions in placeholders suggesting what to insert and what types of information the user of the template might want to include.

## **Customize the Appearance in Microsoft Teams Free**

Learn how to customize your Appearance from a Light to Dark theme and back again in Microsoft Teams Free on Android, iOS, Windows, and Mac devices.

## **Use the dark theme in Microsoft Edge - Microsoft Support**

The dark theme changes the default bright background color in the new Microsoft Edge to a darker color, which is easier on the eyes in low-light environments or if you prefer less bright interfaces.

## **Customize the Desktop Icons in Windows - Microsoft Support**

By default, themes are allowed to change these icons. However, if you have customized these icons to your preference, you might not want them to be altered whenever you change your theme.
