The court grants your oppressive motion to compel, but makes discovery mutual, and you then negotiate a reasonable scope for discovery, or The court issues a final judgment that is adverse to both parties, so you settle the case.

## is it a phrase - English Language & Usage Stack Exchange

A negotiation room is a room where people negotiate, but room for negotiation is what you describe: it shows we are still open to negotiate on certain topics. Maybe this would be better on English Language Learners?

## Pronunciation of the word 'negotiate' with an /s/

In some words there is variation between /s/ and /ʃ/ in a "palatalizing" context: before an unstressed /i~ɪ/ sound (the "happy" vowel) that is followed by a vowel, or before /j/ followed by an unstressed vowel. This isn't an area where pronunciations differ consistently according to dialect: rather, each speaker may have a different pattern of pronunciation for each word.

## word choice - English Language & Usage Stack Exchange

The difference between "intransigent" and "unyielding" seems in my opinion to lie in the attitude of the locutor using the word or in an accepted point of view relative to the context: whereas in the first case certain possibilities seem to exist for finding a common ground but are systematically rejected (SOED, "unwilling to negotiate"), in ...

I often hear US citizens say something like this: <Some phrases>. Period. What does period mean when it appears in a sentence by itself in this type of situation?

## **Is there a meaningful difference between "abjure" and "abnegate"?**

Merriam-Webster provides advice on choosing the right synonym for abjure, although it doesn't include abnegate. Despite that, there's certainly a lot of overlap. Without knowing your context, I'd suggest reading the examples in Lexico and seeing which is closest to what you want.

## **idioms - What's another word for agreeing with another person just for ...**

Also, in this case, the example doesn't quite work, because it is a matter of opinion, which is not a "right/wrong" matter. Neither party could reasonably accuse the other of being wrong for preferring one sport over another. They just like what they like. If the disagreement were over something factual and not just subjective, it might apply though.

## **why are people revealing secrets spilling the tea instead of the beans ...**

Mann explains that drag queens use different style of language to negotiate aspects of their racial identity as well as gender identity. With the use of style-mixing, drag queens can use their linguistic choices to aide their blurring of gender and racial lines.
