EQUILIBRIUM Definition & Meaning - Merriam-Webster

Equilibrium has special meanings in biology, chemistry, physics, and economics, but in all of them it refers to the balance of competing influences.

Equilibrium (film) - Wikipedia

After accidentally missing a dose, Preston awakens and begins to uncover the suspicious inner workings of the regime governing the totalitarian state. Miramax Films released *Equilibrium* theatrically on December 6, 2002.

Equilibrium (2002) - IMDb

Equilibrium: Directed by Kurt Wimmer. With Christian Bale, Sean Bean, Emily Watson, Dominic Purcell. In an oppressive future where all forms of feeling are illegal, a man in charge of enforcing the law rises to overthrow the system and state.

EQUILIBRIUM | English meaning - Cambridge Dictionary

Equilibrium also means a state of balance between opposing forces. Equilibrium is also a state of mental calm.

equilibrium noun - Definition, pictures, pronunciation and usage notes ...

Definition of equilibrium noun in Oxford Advanced Learner's Dictionary. Meaning, pronunciation, picture, example sentences, grammar, usage notes, synonyms and more.

EQUILIBRIUM definition in American English | Collins English Dictionary

Equilibrium is the state in which all the forces on a body are exactly in balance so that the body does not move. When all the forces that act on an object are balanced, then the object is said to be in a state of equilibrium. An object at rest is in a state of equilibrium.

Equilibrium - definition of equilibrium by The Free Dictionary

The sum of all forces acting on a body that is in equilibrium is zero (because opposing forces balance each other). A system that is in equilibrium shows no tendency to alter over time.

equilibrium, n. meanings, etymology and more | Oxford English Dictionary

In physical sense: The condition of equal balance between opposing forces; that state of a material system in which the forces acting upon the system, or those of them which are taken into consideration, are so arranged that their resultant at every point is zero.

EQUILIBRIUM Definition & Meaning | Dictionary.com

EQUILIBRIUM definition: a state of rest or balance due to the equal action of opposing forces. See examples of equilibrium used in a sentence.

Equilibrium Definition & Meaning | Britannica Dictionary

EQUILIBRIUM meaning: 1 : a state in which opposing forces or actions are balanced so that one is not stronger or greater than the other; 2 : a state of emotional balance or calmness
