AI Translation Tool | AI Website & App Translation | Phrase

Phrase Language AI bridges the gap. By combining intelligent engine selection, GenAI-powered optimization, and automated quality scoring, Phrase delivers translations that meet your standards — often without human review. The result is faster turnaround, lower costs, and the confidence to scale.

About Us | Phrase

At Phrase, we believe when you unlock language, you unlock opportunity. That's why we're pushing the boundaries of language technology through automation and artificial intelligence to power high quality, scalable, and fast localization for teams of any size.

Phrase (Memsource): Localization & Translation Software

Phrase AI-powered localization, translation, and content management platform. QA, localization, and globalization tools for teams of any size.

Phrase Localization Platform | Translation & Localization Products

Built with AI, customization and content management at its core, the Phrase Platform enables businesses and language services providers to translate, score and automate their content in a single platform, at incredible scale.

Localization & Translation Solutions in One Platform | Phrase

Our plans include scaling the range of materials localized within the Phrase platform, particularly our help center and customer relationship content. This in turn will bolster business, improve

customer satisfaction, and drive loyalty.
