The Brita Tahoe 10 Cup Pitcher is a user-friendly option for those seeking great-tasting, crisp water. Its dual-compartment design allows immediate access...

ZeroWater 10-Cup Pitcher Review | Tested & Rated - GearLab

This product outperformed other filters that cost over ten times as much in our tests, delivering one of the best overall performances we have seen from a water filter to date. Conclusion If you are looking for clean, clear, and great tasting water, look no further than the ZeroWater.

Honeywell PowerPlus HEPA Review | Tested & Rated - GearLab

Noise Utilizing the turbo setting, the Honeywell PowerPlus HEPA is a very loud device. In fact, every mode we tested was audible and somewhat disruptive. Many air purifiers we've reviewed barely register a decibel reading from 6 feet away on their low settings, but this model landed at 54.2 decibels on turbo, 46.1 on medium, and 41 on the lowest setting. If you're hoping the sound will gently ...
