to kill a mockingbird page 174

How to make a kill command to kill a specific player?

Close, but to find the player we want to kill we have to search through game.Players. Our reference to player will always reference the user who chatted the command.

SQL Server: Kill Process using Stored Procedure

Can you define what you mean with "kill processes"? I don't think it is possible to kill regular windows processes from a stored procedure (and that would be rather odd anyway, consider writing an application for that).

arrays - PowerShell kill multiple processes - Stack Overflow

PowerShell kill multiple processes Asked 11 years, 4 months ago Modified 11 years, 4 months ago Viewed 23k times

How can I kill TCP port 16969 in Bash? - Stack Overflow

I have an application which uses TCP port 16969. It sometimes requires a quick software kernel reboot on the fly. But if I launch it too fast, I am locked with Exception in thread "main"...

how to kill/timeout a long running cronjob pod in kubernetes

0 Is there a way to kill a long running cronjob in kubernetes? Basically, I have created a CronJob in kubernetes. It is running a time consuming operation. I would like to put a limit on it. So, the pod associated with this cronjon should be killed/deleted automatically; if it doesn't finish up with in a specific time period say, 5 minutes.

python - Kill a running subprocess call - Stack Overflow

Instead of sleep(2) + poll you can use wait(2) with a timeout, which won't waste two seconds if the process exits quickly. Additionally, you can use process.terminate and process.kill instead of os.killpg.

os.kill not working on spawned process - Stack Overflow

os.kill works if I run it on the pid of the parent/spawning process, but it does not work if I execute it on the pid of the child/spawned process. In addition to SIGTERM, I've also tried a number of other signals such as SIGKILL, SIGQUIT, etc.

Kill tomcat service running on any port, Windows

Kill tomcat service running on any port, Windows Asked 8 years, 11 months ago Modified 1 year, 5 months ago Viewed 175k times

shell - Kill a Docker Container - Stack Overflow

docker kill: sending a signal to stop a running container. It is equivalent to running docker stop, but with a default signal of SIGKILL, which forcefully terminates the container.

sql server - close/kill transaction - Stack Overflow

I have this open transaction, according to DBCC OPENTRAN: Oldest active transaction: SPID (server process ID) : 54 UID (user ID) : -1 Name : UPDATE LSN ...
