Literature, art, the humanities, and sometimes religious teaching are all directly involved, and the teaching of science and mathematics can bring about a positive attitude toward cognitive and theoretical values.

Teaching Theories, Educational Psychology - Britannica

Pedagogy - Teaching Theories, Educational Psychology: The earliest mental-discipline theories of teaching were based on a premise that the main justification for teaching anything is not for itself but for what it trains—intelligence, attitudes, and values.

Albert Einstein - Physics, Relativity, Teaching | Britannica

Albert Einstein - Physics, Relativity, Teaching: At first Einstein's 1905 papers were ignored by the physics community. This began to change after he received the attention of just one physicist, perhaps the most influential physicist of his generation, Max Planck, the founder of the quantum theory.

Philosophy of education - Teaching, Learning, Curriculum | Britannica

Philosophy of education - Teaching, Learning, Curriculum: Many problems of educational practice that raise philosophical issues fall under this heading. Which subjects are most worth teaching or learning? What constitutes knowledge of them, and is such knowledge discovered or constructed?

Teacher education | Definition, History, & Facts | Britannica

As Aristotle put it, the surest sign of wisdom is a man's ability to teach what he knows. Knowing, doing, teaching, and learning were for many centuries—and in some societies are still today—indistinguishable from one another.
