What Is a Smart TV? - Best Buy

Combining traditional functionality with streaming capabilities, a smart TV is a flat screen television that is equipped with integrated internet connectivity and a built-in operating system. This allows the smart TV to effortlessly stream content, play music, browse social media and so much more. Discover why smart TVs have become the centerpiece of contemporary multimedia setups while we ...

Is "wot wot" or "what-what" an authentic British expression? If it's ...

The correct (or at least original) spelling for the term is "wot". "What, what!" is a malaprop that results from, and perpetuates, a misinterpretation of the term's meaning. "Wot" is very old. It comes from an archaic formal third-person conjugation of "wit" (the verb), which at one time used to mean "to know" or "to understand". The full phrase, then, was originally "you wot". It eventually ...
