Final Multiplier Blanket - Illinois.gov

The property assessment equalization factor, often called the "multiplier", is the method used to achieve uniform property assessments among counties, as required by law. This equalization is particularly important because some of the state's 6,600 local taxing districts overlap into two or more counties (e.g. school districts, junior college districts, fire protection districts). If there ...

In your letter of June 29th, you provided two comments on Ameren's Draft Groundwater Management Zone (GMZ) proposal dated March 25, 2010. Based on your comments and follow-up communications with Lynn Dunaway, we are submitting this letter as an addendum to our pending request, to clarify our original document and hopefully, to address your comments.
