## Glomar response - Wikipedia

Glomar responses are commonly associated with the United States Freedom of Information Act (FOIA), which generally dictates how federal agencies must disclose information. The term "Glomar" originated in association with the FOIA law.

## What the FOIA is GLOMAR?!

Case in point: the term "Glomar" is often used to describe a FOIA response where the agency neither confirms nor denies (NCND) the existence of responsive records. Knowing where this term comes from can help understand why agencies issue this type of response.

## FOIA Update: OIP Guidance: Privacy "Glomarization"

All federal agencies realize that the processing of third-party requests under the Freedom of Information Act -- requests for records on other named individuals -- can involve sensitive personal privacy considerations.

## We FOIA'd every agency's 'Glomar' responses. Here's what we learned.

Almost 50 years later, the name of the ship lives on in the so-called "Glomar" doctrine. Although originally used in the context of a classified Cold War operation, today agencies refuse to "confirm or deny" the existence of records in a wide array of instances.

## Glomar Responses | FOIA Basics for Activists

Agencies can make a variety of determinations to your FOIA request. One of these is a "no records" or Glomar determination. When using Glomar response agencies are categorically refusing to even confirm or deny the existence of the records you requested.

## Shhh! Don't Say Glomar Anymore - Yale Journal on Regulation

Summary: This post summarizes a report adopted by the FOIA Advisory Committee on March 10, 2022, regarding the use of a Glomar response to neither confirm nor deny the existence of records responsive to a FOIA request.
